Needs overview

Water, sanitation and hygiene (WASH)

Situation have been recovering in the past two days for Peninsula Malaysia and Sabah. However, evacuees are facing difficult situation due to damaged house utilities. Besides, cleaning activities to be conducted to remove all the contaminated water from polluting the housing areas.

Health and COVID-19

Supplies of essential medications and consultation are required for evacuees needs. Besides, face masks and hand sanitizers are required to avoid any COVID disease from contacting.

Food and nutrition

Continuous supply of nutritious food is needed for the evacuees staying in the evacuation centers. This include ready-to-eat-food like biscuits, power bars, and canned food. Not to forget, evacuees who have returned home are in need of nutritious food supply such as rice and oil.

Logistics support

MERCY Malaysia require support to mobilise its teams, which includes medical team (medical officers, medical assistance and nurses), aid distribution team, technical team (for recovery assessments) and cleaning team.

Education support

Not to forget, basic back-to-school items such as school bags, shoes, socks and stationeries are now essentials that are required by children affected by the flood.
